»VIENNA FOR LUNCH, VENICE FOR DINNER ... AND DUBROVNIK FOR BREAKFAST«

THIS QUOTE, FROM THE TV SHOW SUCCESSION, TRULY DEPICTS THE HIDDEN GEM THAT IS OUR COUNTRY, WHICH LIES BETWEEN THOSE THREE MAJOR TOURISTIC CITIES. YET SLOVENIA IS MUCH MORE THAN A TRANSIT POINT, IT IS A DESTINATION WHICH, IF GIVEN THE CHANCE, COULD PLEASANTLY SURPRISE YOU AND BECOME A REGULAR DESTINATION FOR YOUR CLIENTS.

I have travelled extensively and visited over 80 countries all over the world, and while they each hold a special place in my heart, nothing compares to Slovenia. A nation rich with culture, history and natural beauty where you can visit a multitude of different places across the country in just a few days.

This is the most fascinating thing about our country – that you can move between literally any of the places in less than 2 hours by car. That you can sleep in a beautiful Alpine chalet, enjoy bear watching in one of Europe's last primeval forests, explore natural wonders of Karst and finish the day in a villa overlooking the Adriatic sea. Or if you prefer to have a spa treatment and overnight in one of the many natural Spas in the eastern part of the country, some of them are considered as the best Spa centres in Europe.

Ljubljana, Lake Bled and Soča river in the Julian Alps, Postojna Cave and Karst, the seaside town of Piran, Olimia and other natural spa centres inland are some of the most visited places, yet there is so much more to see and do.

Slovenia has one of the highest density of medieval castles that you can still visit in Europe, with over 300 still standing. Some even have fascinating medieval towns below them which are a true depiction of the many nations which have

left their mark on ours, showcasing the imprints of Romans and Franks, Austro-Hungarians, Venetians and Yugoslavs.

Two thirds of the country are wine-growing. Due to such a variety of climate and soil, wine is represented in many different types. And slovenian wine is indeed part of us. Even the national anthem is actually a Toast, a toast to all Good and Friendly nations of the world that strive to live to a day when there will be no more conflict and we can all live together in peace!

With as few as 2 million people, Slovenians have had to persevere to keep a hold of our culture amongst so many bigger and more well known countries around us.

In Slovenia tourism is quickly growing and developing. Throughout the last 10 years, the country has turned into the epitome of a boutique and sustainable destination. Most of the accommodations you will find in the brochure didn't exist 10 years ago or have at least undergone major renovation since. Same stands for activities – they keep improving year by year. Just like Slovenian gourmet standard which has captured the world's attention in recent years as well.

*So why wait?
Let us invite you on a journey
with us!*

JULIANA BIKE

MOUNTAIN BIKING LOOP

Cyclists perceive nature and the landscape quite differently than hikers. Despite this, the circular mountain biking route around the Julian Alps - Juliana Bike shares similar panoramas and views of life in the Julian Alps to the footpaths along the Juliana Trail.

The marked mountain biking loop takes you along local roads, biking trails, forest trails or unpaved roads and also demands respect for nature, plants, animals and other sensitive natural habitats, as well as the local people who live sustainably in the protected UNESCO - Man and Biosphere natural environment and Triglav National park.

In addition to the Juliana Bike circular mountain biking long-distance loop, you can now explore the Julian Alps on 32 additional fully digitally mapped biking routes. Some are connected with the Juliana Bike loop, others take you to new destinations. Explore and experience the rich diversity by pedalling throughout the Julian Alps Bike Network - the secondary grid with more than 600 km of mountain bike routes in the Julian Alps.

JULIANA TRAIL

LONG-DISTANCE HIKING TRAIL

The Juliana Trail is not a path that conquers mountain peaks; instead, it keeps you at a respectful distance along the edges of the Julian Alps and Triglav National Park. It immerses you in the authentic pulse of life within the Julian Alps, providing insights into the rich natural and cultural heritage of this magnificent alpine world, teeming with biodiversity.

This trail guides you through hidden and undiscovered spaces for meditation, as well as places with magical allure such as rivers, lakes, waterfalls, forests, exceptional trees, colorful flowers, and rocks of unusual shapes. Additionally, it unveils culinary, cultural, settlement, and historical peculiarities along the way.

THE JULIANA TRAIL SEEKS DIFFERENT HEROES - THOSE THAT ASPIRE ADVANCEMENT IN THEIR SPIRIT AS WELL AS ALTITUDE.

Bled welcomes you to enter the largest and greenest living room in the world, explore its fantastic history and culture, and head for an adventure, exploring its surroundings. In addition to the famous triplets – island, castle, and the Bled cream cake – head to the outskirts of Triglav National Park and create memories that will last a lifetime.

You can reach the **island of Bled** with a Pletna boat, then climb the 99 stone steps to the Church of the Mother of God and ring the wishing bell that echoes across the lake and carries thanks and prayers into the sky. One thousand three hundred metres of secret tunnels wind beneath the town centre, dug out as shelters during World War II. Nowadays, the tunnels are an attractive tourist product with classic or digital guided tours, and the venue for many cultural and culinary events. These boards are supplemented by short animations and, at the Dolga planja archaeological site, a digital reconstruction of the past too.

The Vogel is one of the most extensive alpine pastures in the eastern Julian Alps, first inhabited some 5000 years ago. Located in the Lower Bohinj mountains, it consists of Prvi Vogel and Zadnji Vogel and stretches from the peak of Konjski vrh over the Vogel and Šija mountains to the ridge above the Suha alpine pasture.

1. The Rjava skala viewpoint
2. The fauna of the Vogel
3. The fauna of the Vogel - amphibians
4. Development of the Vogel ski resort
5. The flora of the Vogel
6. Dolga planja archaeological site on Prvi Vogel
7. Vertical transhumance in the Iron Age

An easy, family-friendly hiking trail

Duration: 2 h 30 min

Sea level: 1770 m–2070 m

Altitude: 300 m

Total trail distance: 4 km

The high-mountain ski resort Vogel is an attractive destination all year round. With natural snow, incredible views, and the white scenery of nature in winter, it offers even more spectacular views in summer and autumn. Vogel in its green setting offers a variety of activities, recreational possibilities, and adventures in the high mountains, whilst the hills are decorated with the beautiful colors of mountain flowers.

The cable car takes you to an altitude of 1535 meters. From here you can enjoy views of the Julian Alps including Triglav and the entire Bohinj valley with Lake Bohinj. Vogel is an excellent starting point for hiking, but also offers mountain biking in the Bike Park, a new Disc Golf Park, and for the youngest, a children's playground. And if you want to go even higher, the Orlove Glave four-seater chairlift will take you to an altitude of 1700m.

In 2023, we demolished the four-decade-old double-seater chairlift Zadnji Vogel and replaced it with a new panoramic circular cabin cable car. In addition to the winter season, it will also be in full operation during the summer season, when you will be able to take a ride in one of the 24 cabins for 10 people and admire the high mountain world with its breathtaking views.

TICKLE YOUR TASTE BUDS IN VOGEL'S RESTAURANTS AND MOUNTAIN HUTS.

The **panoramic Viharnik, Panorama and Galerija restaurants** are located at the upper station of the cable car. Here you can enjoy culinary delights all year round. The restaurants are also suitable for large groups, but in that case, prior reservation is required.

You can reach the **Orlove Glave mountain hut** either on foot or by taking the chairlift. You will be delighted by the House "ričet" (barley and vegetable stew) and the House strudel Orlove Glave, both awarded with the Bohinjsko/From Bohinj certificate, as well as other local delicacies.

In the charmingly arranged **Merjasec mountain lodge**, you can find delicious and well-known house specialties such as Merjasec's goulash with polenta made from Bohinj maize "trdinka", which is certified Bohinjsko/from Bohinj, as well as other selected dishes of local origin and high quality.

Karst & Brkini

The name of our special world, located between the Gulf of Trieste, the Vipava Valley and Brkini, is the Karst. It is where water and soluble rocks make contact. This has resulted in the emergence of a magic world filled with underground caves, disappearing rivers, dolines and other karst phenomena. In fact, our Karst plateau gives its name to all similar landscapes around the world with comparable soil composition and the whole set of karst natural phenomena. The Brkini region is characterised by flysch soil and a climate that oscillates between continental and Mediterranean. It is the land of fruit and fruit brandies. This remote hilly world is a special treasure you will want to enjoy again and again.

Over 90% of this picturesque landscape is covered in woodlands and unveils opportunities for explorations and intimate communion with nature where you can partake in unforgettable, active, and healthy hiking, and cycling ventures.

Renowned as the cradle of responsible forest management, Kočevsko harbors six invaluable primeval forests, the largest being Primeval Forest Krokav, a UNESCO-listed natural heritage site since 2017. These untouched areas without human interference reflect exceptional biodiversity, inviting only

distant admiration or exploration along carefully curated paths on their periphery. On a truly unique experience, you can also “enter” the forest through our available VR experience, bringing the beauty of Kočevsko’s woodlands to life in the virtual realm.

Venturing into forests of Kočevsko is not just a visual feast; it’s an opportunity to encounter the elusive wildlife. Our forests are a home to all three of nature’s majestic carnivores – the brown bear, the Eurasian lynx, and the gray wolf. Delve into the mysteries of these creatures through expertly guided wildlife watching and tracking adventures. Our guided wildlife

watching experiences have earned acclaim, especially the program “Observing and Discovering Bears in Their Natural Habitat”, crowned as a 5-star tourist experience and proudly bearing the label “Slovenia Unique Experience” bestowed by the Slovenian Tourist Board.

Beyond its natural allure, Kočevsko also boasts a rich cultural history. Here, amidst idyllic landscapes, you can unplug from the stresses of everyday life and rediscover the art of true self-connection. Welcome to Kočevsko, where every moment is a bespoke journey into the extraordinary.
